

Tethered Drone

Safe fly and communications for hours and days

Our Fibre technology allow us to present the new Captive Drone for long time aerial shooting. This drone is equipped with a Full Broadcast HD camera and zoom lens. Used for beauty shots in safety conditions, shots can transmit "Live" for hours and days. The two-member crew allow a mobile and fast installation to move between different venue locations.

Full Autonomy

Power generator on ground
with power / fiber rope for long flight

Safety

Approved by
EASA, FAA & DGAC

Full HD/4K LIVE

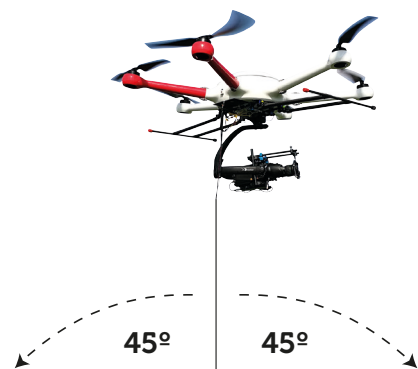

Camera Live with control painting

Full Zoom Capacity

With HD lens control

Up to
100 m
height

Winch
fiber rope

Tethered Drone

Safe fly and communications for hours and days

- **Power/Optical fiber rope** to ground 100 meters height
- Power generator on ground for **full autonomy**
- **Motorized** winch control for rope tension
- **Full HD/4K** camera Live with control painting
