

X track Mini / iO.BOT

Robotic Camera System: Simple, flexible & affordable

The X track mini is very easy to rig in a very short time.

A small head 2 axes is rigged on the dolly which moves thanks to a very precise engine. A motion control version is available in option.

- Up to **3m** travelling
- Full motion **control IP**
- Support **PTZ & Remote head**
- Mount **vertical, horizontal, on the floor or the ceiling**
- AR/XR compatible with **FreeD**
- With cable chain carrier **noiseless**
- Up to **1m/s** speed

Fully compatible with studio
and control room devices

Easy to setup, use
& Fast training

3D Engines
& Augmented Reality

Precise & smooth
for perfect shots

ARCAM ROBOTS

- **6 axis full motion** control arm
- Programmed to move on **3D**
- An optional dolly can support the **arm upside/down**
- Support any camera & lens **up to 12,5 KG payload (NEW)**

Automation System

- **Connect** your robotic & automation systems
- **Compatible** with any automation systems

ROBOTIC HEAD

iO.BOT

ONE SOFTWARE TO RULE THEM ALL

- Control your **ARCAM** and all your **PTZs**
- Connect them to **any 3D Engines** and **Automation System**
- Define **Unlimited trajectories**
- **Ergonomic** Interface
- Optimized for a **Broadcast use**

- Control up to 16 PTZs at the **same time** from the software

3D Engine

- Get all the robot's **information** in **real time**
- **Compatible** with any 3D engines
