

Meet us at Sportel

XD motion will be at Sportel Monaco, the most influential business convention for the sports media industry. This event will be held at Grimaldi forum in Monaco on October 12 -15 2015.

We invite you to meet us in the outdoor booth of our partner [PULZ](#). We will be delighted to present the Muto, a single-cable carrier intelligent chassis with onboard engine and power supply.

This new system of aerial wire system is light weight, ergonomic and totally secure. Versatile, it is designed for Indoor and Outdoor venues.

Benoît Dentan, CEO of XD motion will be present. If you would like to arrange a meeting, you can reach him on his mobile : +33 642097332 or email : bdentan@xd-motion.com . He will be pleased to answer your questions.

• [GSS C 520 - C 516](#)

As European Sales and Support Partner of the Amercian company GSS, we will introduce our new gimbal: [GSS C 520](#)

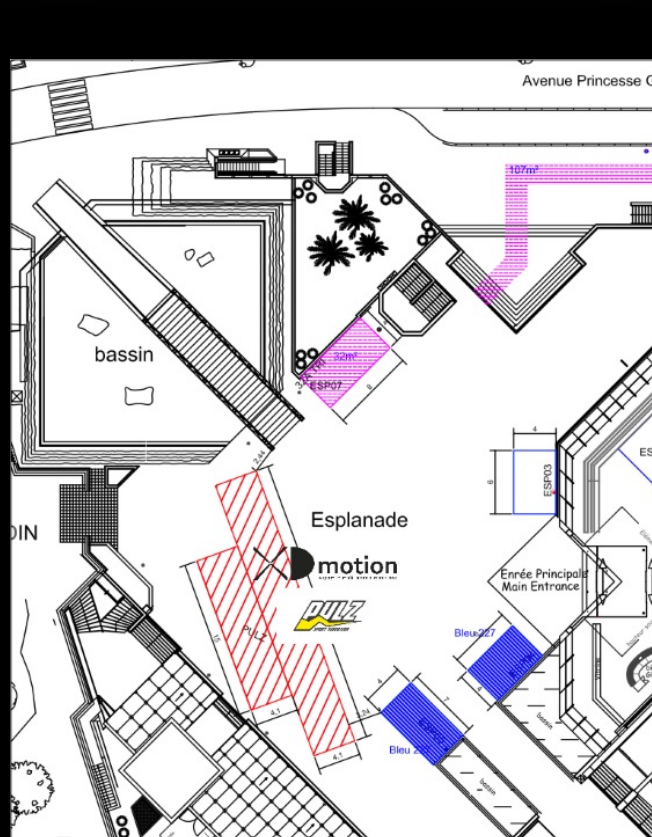

GSS Systems are the smallest and lightest system in the world to integrate all of the most popular Digital cinema and Broadcast cameras. GSS systems do not have ITAR restrictions, and Vector Steering allows for look-down capability with no gimbal lock.

More details on our website: [click here](#)

• [X Fly 3D:](#)

With the success of X fly in 1D and 2D, XD motion has developed a new X fly configuration allowing movement in 3 dimensions. Using the latest technology, the X fly 3D is based on 4 fiber ropes attachment points and allows the dolly to move left & right, up & down and forward & backward. Safety critical software ensures collision avoidance as well as repeatable flight paths. The pilot can concentrate on the camera shots without having to look at the dolly camera.

XD motion will be with PULZ on the outside booth. Map above.
