

AERIAL DEMONSTRATION IN PARIS:

- XD motion, sales and support Partner of Gyro-Stabilized Systems, invites you to demo the GSS C520 on a Squirrel AS 350 helicopter on September 21st.

The C520 is the **smallest** and **lightest** system in the world to integrate all of the most popular digital cinema cameras. Cameras and lenses can be swapped out in **less than 30 minutes, quicker** than any other gyro-stabilized system on the market. The C520 does not have ITAR restrictions, and VectorSteering allows for **look-down capability** with no gimbal lock. No auxiliary junction unit is required and with in-flight calibration the C520 has an **unbeatable horizon reference**.

- Please join the XD motion and GSS teams for this flight test and demo on September 21st at:

Helifirst - 4 Avenue de la Porte de Sèvres - 75015 Paris

- To inform us about your presence and arrange a flight test, please contact:

Pauline Vincent: pvincent@xd-motion.com

Depending on the request and weather we may add another demo day on September 22nd.

11-15 September, meet GSS and XD motion at the IBC Show in Amsterdam. Booth E40 in Hall 11.

XD motion Europe Head Office:
23, Rue des Broderies, 78310 Coignières, France.
