## IBC 2017

XD motion will be present on booth 12E56  
 from September 15-19 in Amsterdam.

## NEW PRODUCTS :

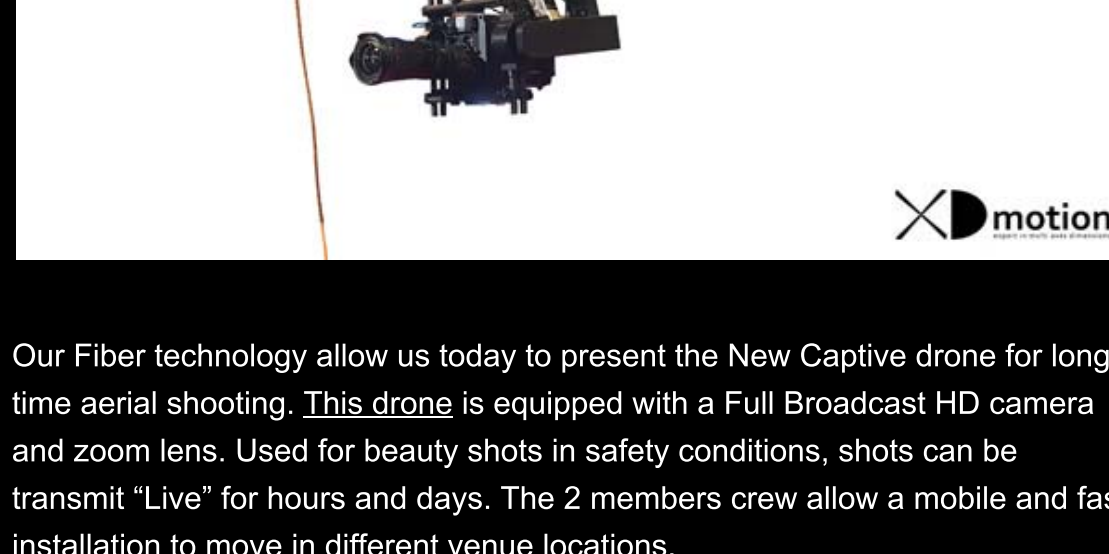

**fly 3D** **4K** **8K** **NCAM**  
**Augmented Reality**

X.fly 3D is now equipped with the latest generation of VR / AR NCAM real-time tracking compatible with all digital and Broadcast cameras.

The parameterization is instantaneous and allows an immediate use of the software in order to preview the VFX sequences or insert any graphics in real time. The power of the 14 sensors allows a precise and unprecedented reality in real time.

## Tethered Drone 4K

Our Fiber technology allow us today to present the New Captive drone for long time aerial shooting. This drone is equipped with a Full Broadcast HD camera and zoom lens. Used for beauty shots in safety conditions, shots can be transmit "Live" for hours and days. The 2 members crew allow a mobile and fast installation to move in different venue locations.

## TV SPORTS :

### Asian Games in Kuala Lumpur

Our entire team was mobilized in Malaysia for the 29th Asian Games. The X.fly 3D / MINI Flight Head and X.tracks / Slab.C have covered athletics and swimming events as well as the 2 ceremonies of the games.

## IAAF Diamond League

First competition for athletics in Paris at the Charléty stadium. The X.fly 1D with the GSS.C 520 flew over the stadium at high speed from the outside to the vertical of the 100 m.

## TV EVENTS :

### Tomorrowland 2017

The biggest Dance floor in the world was covered by our X.fly 1D across the width of the gigantic stage. Equipped with the GSS.C 520 in HF Live, the precision of the stability of this powerful head allows shots at very high speed in full lens zoom.

## Puy du Fou

2 of our Hexacam RED and Inspire 2 Drones have been used for the complete filming of the Parc Vendéen.

## FEATURE FILMS / COMMERCIALS :

### Mini Russian Arm for BMW Mini advertising and Skoda

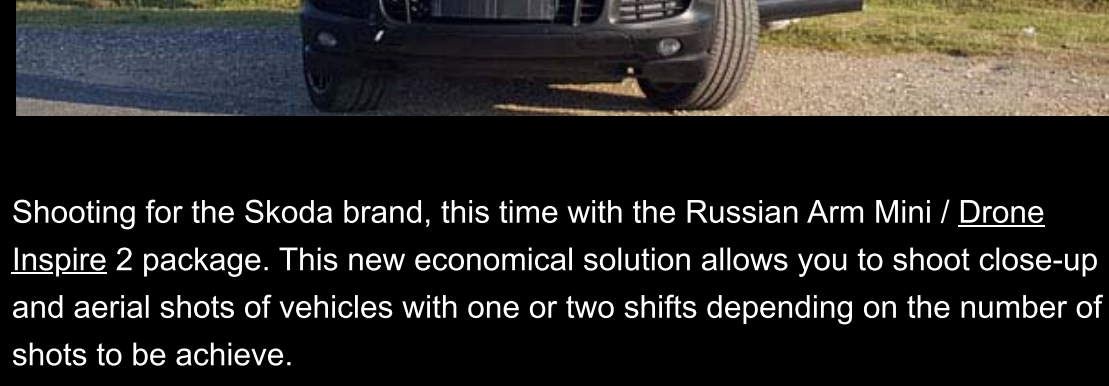

Shooting with the Russian Arm Mini which is now available in Nice for the filming of the legendary Mini BMW. Particularity of this shooting, we setup 2 ARRI 16 and 35mm film cameras to shoot the mythical scenes of the Monte Carlo Rally.

Scenes shot at high speed in the hinterland of Nice and Monaco. XD motion now offers its expertise for all of southern France.

Shooting for the Skoda brand, this time with the Russian Arm Mini / Drone Inspire 2 package. This new economical solution allows you to shoot close-up and aerial shots of vehicles with one or two shifts depending on the number of shots to be achieve.

The Russian Arm Mini is transportable in air freight or standard carrier to reduce logistics costs.

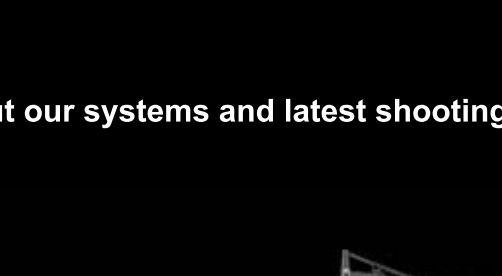

Sandra our precision driver of the Porsche Cayenne with Alex on the arm.
